Add a Language Level

1. The first time you launch Rosetta Stone®, you install your language files. Click **Add a Language Level**.

2. Insert your Language CD-ROM. Click **Continue**.

3. Select the language and click **Install selected language**. This may take some time.

4. Select the location where your language files will be installed.

   **Note:** The language files require up to 600 MB per Language Level. Choose a location with enough space available for all Language Levels you plan to install. The language files can be installed in a separate location from the Application folder. You cannot change the language file location later.

   Click **Accept** to install the language files in the selected location, or click **Choose a different location**.

5. When the Language Level installation is complete, click **Continue** to launch Rosetta Stone.

   Or click **Add another Language Level**. You can add more languages later from Preferences
**C Register and Activate**

1. Register Rosetta Stone for full access to Rosetta Stone Technical Support.

2. Activate the Language Level to gain access to all Lessons. Enter the Activation ID that came with your Rosetta Stone product, and click **Activate**.

   For the fastest activation experience, we recommend activating Rosetta Stone over the Internet. If you do not have Internet access, you will need to call Rosetta Stone to activate your license over the phone.
   - In the U.S., please call toll free: (866) 482-9807
   - In Germany, please call: 0800 000 1148
   - In Europe (outside of Germany), please call: +44 0808 178 5192

   Click **Activate Later** to postpone activation and work with a limited set of Lessons.

**D Add Users**

1. The first time you start Rosetta Stone, you create a new user. You can add more users later by clicking the Users icon.

   Type your user name.

   Select **Female** or **Male** for the Rosetta Stone Speech Recognition technology.

   Click **Save changes**.

   **Create a user:**
   
<table>
<thead>
<tr>
<th>Laura</th>
