Quick Start
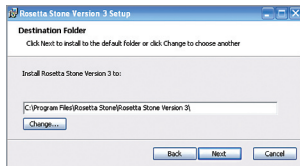

A Install Rosetta Stone®

Windows:

1 Insert the Rosetta Stone Application CD-ROM.

2 Select the user interface language.

3 Follow the prompts to continue the installation.

4 Select the location where your Rosetta Stone Application files will be installed. Accept the Destination Folder that appears, or click **Change** to select a different folder. Click **Next**.

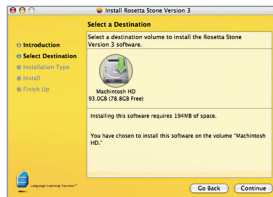

5 When the installation is complete, keep the box checked to launch Rosetta Stone. Click **Finish**.

Mac:

1 Insert the Rosetta Stone Application CD-ROM. The installer may require your password. Follow the prompts to begin installation.

2 Select the location where your Rosetta Stone Application files will be installed.

Accept the Destination Folder that appears, or click **Select Folder** to install in a different folder. Click **Continue**.

3 At the Installation Type screen, click **Install**.

When the installation is complete, you will find Rosetta Stone in the Applications folder.

B Add a Language Level

1 The first time you launch Rosetta Stone®, you install your language files. Click **Add a Language Level**.
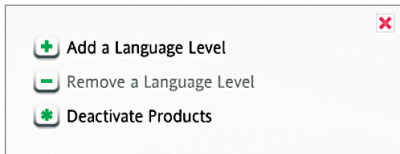

2 Insert your Language CD-ROM. Click **Continue**.

3 Select the language and click **Install selected language**. This may take some time.
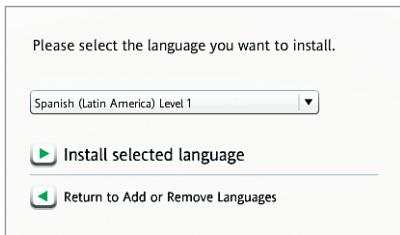

4 Select the location where your language files will be installed.

Note: The language files require up to 600 MB per Language Level. Choose a location with enough space available for all Language Levels you plan to install. The language files can be installed in a separate location from the Application folder. You cannot change the language file location later.

Click **Accept** to install the language files in the selected location, or click **Choose a different location**.

5 When the Language Level installation is complete, click **Continue** to launch Rosetta Stone.

Or click **Add another Language Level**. You can add more languages later from Preferences ⊕.
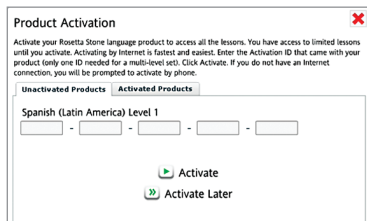

C Register and Activate

1 Register Rosetta Stone for full access to Rosetta Stone Technical Support.

2 Activate the Language Level to gain access to all Lessons. Enter the Activation ID that came with your Rosetta Stone product, and click **Activate**.

For the fastest activation experience, we recommend activating Rosetta Stone over the Internet. If you do not have Internet access, you will need to call Rosetta Stone to activate your license over the phone.

• In the U.S., please call toll free: (866) 482-9807
• In Germany, please call: 0800 000 1148
• In Europe (outside of Germany), please call: +44 0808 178 5192

Click **Activate Later** to postpone activation and work with a limited set of Lessons.

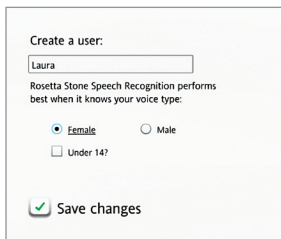

D Add Users

1 The first time you start Rosetta Stone, you create a new user. You can add more users later by clicking the Users icon .

Type your user name.

Select **Female** or **Male** for the Rosetta Stone Speech Recognition technology.

Click **Save changes**.

2 Click **Start** to launch the Course as the user you have just created, or click **Add a user.**

ⓔ Select Your Course

1 Select your Course based on your language-learning goals.

Choose the Recommended Course to learn a variety of language skills.

Or select an alternate Course: the Extended Course for extra practice, or focus on skills in Speaking and Listening or Reading and Writing. Keep **Learn letters and sounds** checked to add Reading Activities that introduce the sounds that letters make. You can change your Course later in Preferences ⚙.

Click **Next**.

ⓕ Build Your Course

1 Click anywhere to see how Rosetta Stone builds your Course. Each Core Lesson is supplemented by Focused Activities that reinforce the Core Lesson.

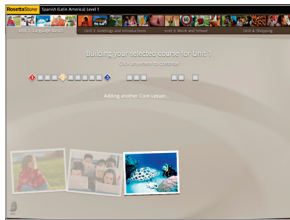

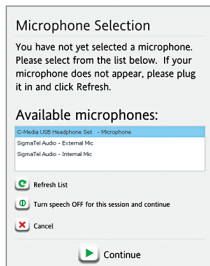

2 When your Course is complete, click anywhere to continue.

3 The Home Screen appears, showing the first Core Lesson of your selected Course. Click **Start**.

G Set Up Your Microphone

1 Plug in your microphone headset. Follow the Microphone Selection prompts. If your microphone is not listed, click **Refresh List**. When you've selected your microphone, continue to Microphone Setup.

Microphone Selection

You have not yet selected a microphone. Please select from the list below. If your microphone does not appear, please plug it in and click Refresh.

Available microphones:

C-Media USB Headphone Set - Microphone
SigmaTel Audio - External Mic
SigmaTel Audio - Internal Mic

↻ Refresh List

⏻ Turn speech OFF for this session and continue

✖ Cancel

▶ Continue

2 Position your headset with the microphone in front of your mouth.

3 Click **Continue** to begin. At the tone, speak in a normal voice: "1, 2, 3, 4, 5." A confirmation appears when setup is successful.

Microphone Setup

Say: 1, 2, 3, 4, 5

▶ Continue

1, 2, 3, 4, 5

❓ Help
✖ Cancel

4 Click **Continue**.
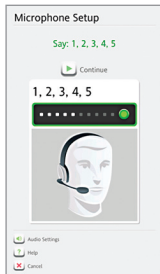

H Screen Types

Rosetta Stone® uses a variety of screen types to help you associate meaning with new words.

Choose image

Click on the picture that matches the spoken words and text.

un niño

una niña   un niño

Speech practice

Speak into the headset microphone.
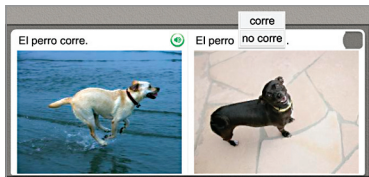

una niña   un niño

Match picture

Click on the small picture that matches the word or phrase.

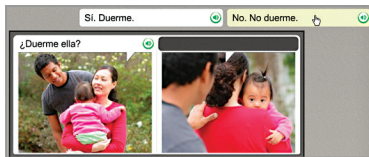

Multiple choice

Choose the text that completes the phrase.

Choose prompt

Choose the phrase that answers the question.

Type text

Type the phrase on your computer keyboard, or click the keys on the on-screen keyboard. Click a special character key to insert a character with an accent or diacritic mark.

For more assistance:

See the Rosetta Stone User's Guide. Chapter 4, *Changing User Options*, describes how you can change the selections you made during installation.
