

ROSETTA STONE® LIBRARY SOLUTION FOR HIGHER EDUCATION

Language learning for your entire campus.

As multicultural influences increase, campus interest in language learning grows. Rosetta Stone® Library Solution for Higher Education is designed for academic libraries in 30 languages to help students, faculty, and staff engage with confidence in multilingual settings—close to home or abroad.

Learners are engaged by systematically developing fundamental language skills through a predefined sequence and unique immersion method. Our structured presentation of sounds, images, and text helps learners absorb meaning intuitively, so learning is natural and rewarding.

Rosetta Stone Library Solution is designed to meet a range of cultural interests that serve a wide range of needs on your campus—from exposure to new culture and language to helping enrolled English Language Learners hone their English skills.

KEY FEATURES*

Language Lessons provide core language instruction.

Mobile Apps extend learning beyond the library.

Focused Activities refine grammar, vocabulary, pronunciation, and more.

KEY BENEFITS

Rosetta Stone® Library Solution for Higher Education provides online learning in an immersion environment.

- Available for everyone across your campus to build language skills
- Activates natural aptitude for acquiring a new language
- Personalises experience enabling learners to progress at their own pace
- Provides accessibility anytime, anywhere on mobile and on the web

ROSETTA STONE® LANGUAGE LEARNING SUITE FOR HIGHER EDUCATION

Rosetta Stone Library Solution for Higher Education combines e-Learning and proven methodologies for easy integration into your language programme.

Systematic structure builds language naturally.

Language Lessons engage learners instantly.

Learning begins immediately in an immersion environment with interactive activities carefully sequenced to build language naturally, without drills or translation. *Language Lessons* introduce reading, writing, speaking, and listening skills, with new vocabulary being introduced in the context of language previously learned, strengthening skills and retention.

Strong emphasis is placed on producing spoken language. Proprietary speech recognition evaluates learners' pronunciation, providing immediate feedback guiding learners to speak the new language correctly.

Focused Activities refine specific skills.

Focused Activities reinforce language learned in *Language Lessons* while refining more specific parts of language, such as grammar, vocabulary, pronunciation, listening, and other key skills. Along the way, reviews reinforce content mastered in previous activities and lessons.

Mobile Apps enable learning anytime, anywhere.

Learners practise and increase retention of language skills and vocabulary at their convenience using a variety of mobile devices outside the library.
