

Customised language learning for your school or academy.

Schools often have language needs that extend beyond standard language programmes and vary in scope and scale. Rosetta Stone® Custom Solutions for Schools is a service that provides custom content to equip students with language learning customised to your unique school or curriculum needs.

As your partner, our team of expert curriculum designers can work with your teachers and curriculum specialists to build a custom language programme to achieve specific learning outcomes tailored to your requirements.

KEY FEATURES*

Content Authoring services tailor content to specific context and desired learning outcomes.

Administrator Tools allow teachers to track, measure, and demonstrate student progress.

Training, Implementation, and Support services provide successful deployment in your school and across entire groups of schools.

ROSETTA STONE® LANGUAGE LEARNING SUITE FOR SCHOOLS

Rosetta Stone Custom Solutions for Schools combines e-Learning and proven methodologies to develop customised language programmes for a school, cluster, or group of schools.

KEY BENEFITS

Rosetta Stone® Custom Solutions for Schools aligns language learning with your needs.

- Enables schools to establish an online learning programme that complements in-class instruction
- Allows teachers to add more flexibility to the language curriculum
- Provides more opportunities for students to engage and practise their new language beyond the classroom

Tailor language programmes to meet your unique needs.

Content Authoring customises language training.

Our team of expert curriculum designers builds your custom language programme, leveraging a proven instructional framework that helps achieve learning outcomes. Superior speech-recognition technology can be embedded throughout the programme.

Our curriculum designers will work with you to analyse your school's language-learning requirements and establish learning outcomes, design programme requirements, develop lesson content, and implement your custom language-learning solution. Once the programme is in place, our team will work with you to evaluate outcomes and ensure success.

Administrator Tools provide dynamic reporting options.

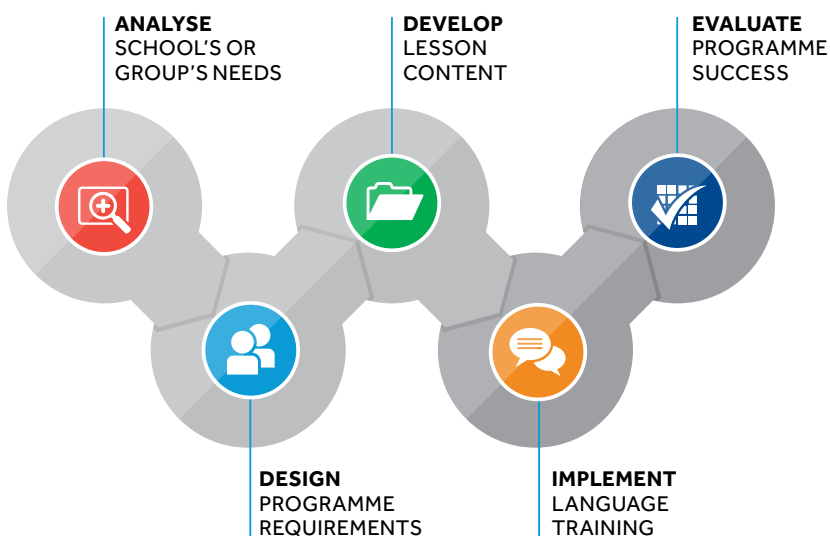

Robust tools enable teachers to track usage and progress for individual students and classes, including activity completion and time on task, and generate real-time reports.

Training, Implementation, and Support services prepare you for success.

Our team of experts partners with you to plan, deploy, and promote the programme in your school or across entire groups of schools, and integrate our solutions into your technical infrastructure.
