

# SHAPING THE FUTURE

## Rosetta Stone K-12 User Conference

November 15-16, 2017 | Hilton Nashville Downtown

## SEE HOW LANGUAGE LEARNING SHAPES THE FUTURE.

You're invited to Day 1 of the Rosetta Stone K-12 User Conference, to be held this November at the Hilton Nashville Downtown.

You may ask yourself, "Why attend a user conference?" We promise it will be well worth the time and expense as we combine education, networking, inspiration, and fun!

### LEARN

Continuous learning and time away from the classroom and everyday distractions open our minds to new ideas. You will learn as much from each other as you will from our presenters!

### CONNECT

Networking is a core benefit of any conference. Meeting other individuals passionate about language learning stimulates valuable conversations and fosters lasting relationships. It's great for our staff, clients, and colleagues to meet each other. Let's build our community, together!

### INSPIRE

Learn and share creative ideas about online language learning best practices, and appreciate what is possible! You will leave with a sense of renewed energies and great new ideas to incorporate into your lesson plans when we get home.

### WHO SHOULD ATTEND?

K-12 administrators and teachers interested in learning more about how Rosetta Stone® Foundations can support their schools are invited.
