KEY BENEFITS

Rosetta Stone® Custom Solutions for Higher Education aligns language learning with your needs.

- Enables language departments to provide an online learning solution that complements their specific language instruction
- Allows educators to add more flexibility to the language curriculum
- Provides more opportunities for learners to engage and practice their new language beyond the classroom

Tailor language programs to meet your unique needs.

Content Authoring customizes language training.

Our team of expert curriculum designers builds your custom language program, providing a proven instructional framework that helps achieve learning outcomes. Superior speech-recognition technology can be embedded throughout the program.

Our curriculum designers will work with you to analyze your institution's language-learning requirements and establish learning outcomes, design program requirements, develop lesson content, and implement your custom language-learning program. Once the program is in place, together we will evaluate the program to ensure success.

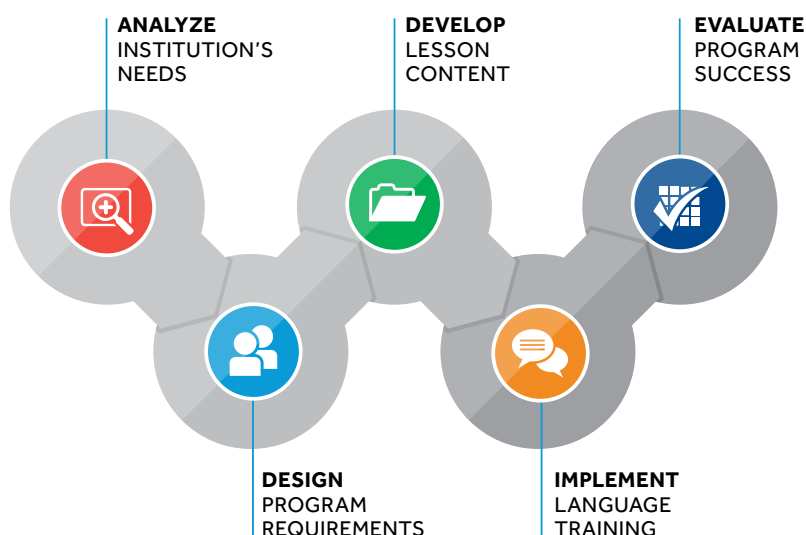

Administrator Tools provide dynamic reporting options.

Robust tools enable educators to track usage and learner progress for individuals and groups, including activity completion and time on task, and generate real-time reports.

Training, Implementation, and Support services prepare you for success.

Our team of experts partners with you to plan, deploy, and promote the program in your institution, and integrate our solutions into your technical infrastructure.

Our specialists will consult closely with you to define content and instructional options tailored to your specific needs and assist with program implementation.
