Build towards conversational proficiency.

Rosetta Stone® Foundations for Schools is a scalable digital solution designed for beginner to intermediate students in up to 24 languages to build fundamental language skills.

Our structured approach engages students by developing language skills through a predefined sequence and method using sounds, images, and text to help students absorb meaning intuitively, so learning is natural.

As students complete interactive language instruction they unlock the ability to practise their language skills—adjusted to their learning progress.

KEY FEATURES*

Language Lessons provide core language instruction.

Administrator Tools provide teachers with robust reporting tools to track and measure student progress.

Mobile Apps extend learning beyond the classroom.

Teacher Guides and Workbooks provide support materials to integrate the solution into classroom activities.

Training, Implementation, and Support services ensure successful deployment in your school or academy.

SUPPORTED LANGUAGES

- Arabic
- Chinese *(Mandarin)*
- Dutch
- English *(US)*
- English *(UK)*
- Filipino *(Tagalog)*
- French
- German
- Greek

- Hindi
- Irish
- Italian
- Japanese
- Korean
- Persian *(Farsi)*
- Polish
- Portuguese *(Brazil)*
- Russian
- Spanish *(Latin)*
- Spanish *(Spain)*
- Swedish
- Turkish
- Vietnamese

KEY BENEFITS

Rosetta Stone® Foundations for Schools is a comprehensive language solution.

- Immersion environment activates natural aptitude for acquiring a new language

- Personalised experience enables students to progress at their own pace through a structured sequence

- Accessibility anytime, anywhere on mobile and on the web

Fundamental language learning that works.

Language Lessons engage students instantly.

Learning begins immediately in an immersion environment with interactive activities carefully sequenced to build language naturally. Core lessons introduce reading, writing, speaking, and listening skills; key skills such as grammar and vocabulary are then refined in *Focused Activities.*

Strong emphasis is placed on producing spoken language. Proprietary speech recognition evaluates students' pronunciation, providing immediate feedback guiding students to speak the new language correctly.

Teacher Guides and Workbooks support teachers during their lessons.

Teachers receive support materials for our most popular languages, including workbooks with paper-based activities, teacher's guides, and quizzes. These materials help teachers integrate technology-based learning into their curriculum.

Administrator Tools provide dynamic reporting options.

Management tools enable monitoring of student, class, and group progress. Reports identify students' strengths and weaknesses, assisting teachers in planning group activities and one-on-one instruction. Administrators can manage access, roles, and permissions across individual schools and clusters of schools.

Mobile Apps enable learning anytime, anywhere.

Students can practise and learn, inside and outside the classroom, using a variety of mobile devices and tablets.

Training, Implementation, and Support services focus on teacher and student success.

Our team of experts partners with you to effectively implement a programme that can blend with in-class teacher instruction. We support your staff by ensuring our solutions work within your technical infrastructure.
