

Join us for our monthly K-12 webinar series.

Each month we will share information and ideas to help schools and districts make the most of their language-learning implementations.

### ATTEND UPCOMING WEBINARS

#### How Language Learning Can Work Offline

We often get asked, "Aren't Rosetta Stone resources only online?" Now is a great time to learn about our offline Classroom Builders and Supplemental Materials! While Rosetta Stone Foundations can successfully be implemented as a standalone, computer-only program, we can offer you even more. Did you know we have over 10,000 pages of supplemental materials?

Attend this webinar and learn what those pieces are, how they could work in your classroom, and how to decide what would be useful to you. Our Training Team Lead, Melanie Rogers, will provide an overview and even spend time discussing the creation of blended lesson plans.

NOVEMBER 13, 2017 | 2 PM EST

#### Year in Review With Rosetta Stone

You've made it to Winter Break! No matter whether your students are on fire or need a little extra motivation, let's spend this hour discussing how you've done this year and how to determine next steps. We'll talk about reviewing expectations, celebrating successes, and setting goals for the New Year.

DECEMBER 14, 2017 | 2 PM EST

#### K-2: Our Youngest Rosetta Stone Learners

Our Kindergarten students have been in school for half a year and our first and second grade students are continuing their educational journey. During this hour, let's talk about our youngest learners and how they've changed in the last few months. If they're learning English, or a world language, we'll discuss strategies to keep them engaged and excited about learning a language.

JANUARY 17, 2018 | 2 PM EST

#### Expanding Language Learning with Projects

Project-Based Learning is a teaching method in which students gain knowledge and skills by working for an extended period of time to investigate and respond to a complex problem. Learn ways to incorporate Rosetta Stone® lessons into projects for your K-12 classroom. We'll talk about both elementary and middle/high school project ideas and how to pull them together as quarter- or semester-length language projects.

FEBRUARY 22, 2018 | 2 PM EST

#### Meet the Rosetta Stone Polyglots

Join us for this opportunity to meet some of Rosetta Stone's employees who are true polyglots. They speak multiple languages fluently, as well as a couple more not-quite-fluently. Rosetta Stone's Roxana Nabavian, Leslie Perez, and Andrea Yampolsky will share some of their stories, as well as thoughts about language learning.

MARCH 14, 2018 | 2 PM EST

#### Language Teachers and Digital Literacy Skills

Technology has changed the way teachers interact with, and even teach, their students. We'll review some important digital skills every teacher needs to know, share educational resources to make you more efficient and productive—and might even put you a step ahead of your students.

APRIL 19, 2018 | 2 PM EST

#### Summer Challenge: Keeping Rosetta Stone Usage Alive

You've made it through the year! Our Training Team Lead wants to help you review the past school year and wrap it up. It's important that learners don't stop learning, so we'll also review some ways to keep Rosetta Stone program usage active over the summer months. Everyone will be ready to start next year and achieve more.
